### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Regarding the objections to the drawings and 112 issues raised in the Office action of 11/18/03, upon reconsideration and in view of applicant's remarks, the scallops in Figures 4-5 would indeed clamp the cable as long as the clamping surface on member 136 is a chord to the arc around pivot 168.

The prior art does not teach or suggest, in combination with the other elements recited, the clamping surface above the scallops. If Meyer et al were reversed to have the clamping surface above the scallops, the cable would also have to pass above the scallops, in which case Meyer et al's cable 10 would not engage the end 18 to lift the pawl 16 to engage the cable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric D Culbreth whose telephone number is 703/308-0360. The examiner can normally be reached on Monday-Thursday, 9:30-7:00 alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Dickson can be reached on 703-308-2089. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
